DISTINCTIVE ELEGANCE

LOOKS GOOD.
PROTECTS BETTER.

Castia Stone protects your home from dry rot and mold while increasing its value and charm. Thanks to a sealed concrete construction and innovative “rainscreen” technology, our unique siding material provides a barrier between your home and the elements of the rainy Northwest. And since color is added during the manufacturing process, the beauty of Castia Stone exists throughout every piece.

THE CASTIA STONE ADVANTAGE:

The advantages are many. We give you a wide selection of accessories, including fluted columns, and our designs were created to reflect an old-world elegance. Castia Stone is easy-to-install, environmentally friendly, and protects your home with a unique rainscreen technology.

- *Exterior stone surface is coated with a clear, water-repellant sealer*
- *Color permeates throughout the stone*
- *Designed to be flexible to prevent cracking and mortar problems*
- *Innovative bracketing system is easy to install and saves time and labor*
- *Increases the value of your home*
- *Limited lifetime warranty*

RAINSCREEN TECHNOLOGY

The Castia Stone “rainscreen” design creates a continuous 1/2” airspace between the stone cladding and the structure of your home, which allows ventilation and drainage to occur. This means you can say goodbye to trapped moisture, dry rot and mold. Castia Stone quality is proven through product development and testing. Learn more about our products and our high level of service and expertise. Visit castiastone.com or call 1-877-786-6348.

CASTIA RAINSCREEN SYSTEM

“Castia Stone is one of those products that exceed your expectations. The performance, value, and service your company offered was exceptional.”
